THE theme for this year is **ROOTED & GROUNDED**. The story behind this choice lies in several remarkable facts regarding two types of trees: Redwoods and Sequoias. Did you know that they only grow in groves? Not only that, but they're able to grow so incredibly tall because their roots are all connected, holding each other up. Each tree is helping the next as they live and grow together.

We have Life Groups for those very reasons. In order to reach our full potential, we need to be connected to one another, helping each other live and grow. Sure, you could do life alone, but you wouldn't fulfill everything you were meant to without

others.

Everybody helping everybody—those kinds of connections are made in Life Groups. Join one today. You won't just help yourself; you'll end up being a part of something much bigger that helps others, too.

Pastor,

Allen Hickman
